

JOB PROFILE

Marketing Assistant – Student Job (m/f/d)

OUR COMPANY

Our award-winning startup dive solutions provides web-based CAE solutions for engineering companies. Our in-house software utilizes novel particle-based technologies to simulate fluidic processes in complex mechanical systems. We accelerate development processes and decision making. Our dogma: We create beloved world-class software to help engineers design more sustainable products every day.

OUR CULTURE

We trust in creative people who love what they do. People who want to work on cutting edge technology that empowers engineers to make the world a better place. We believe in diversity, strong teams and healthy and friendly culture of trust, constructive feedback and empowerment. Work is not a job. Work is being passionate about something, meeting great people and building something you believe in.

YOUR MISSION

You co-create Dive Solutions' brand and influence business expansion.

YOUR TASKS

- You develop in content marketing creation (e. g. blog, newsletter, SoMe channels, offline marketing assets)
- You support brand marketing activities by running campaigns, building social media presence and designing marketing assets
- You promote the company at industry related events
- You take active part in creating marketing strategy and identify market opportunities

YOUR PROFILE

- ✓ You have initial marketing experience, preferably in a start-up environment
- ✓ You speak English and German fluently, both written and verbally
- ✓ You are a tech-savvy and keen on understanding complex tech products and communicating them into clear content
- ✓ You thrive on challenge and you are willing to take ownership of your role
- ✓ You are highly organised and a creative team-player with implacable communication skills

OUR OFFER

- ❖ Inspiring culture of creativity, failure and improvement, fast decision making, best-ideas-win philosophy
- ❖ Personal and extensive onboarding, professional and personal development opportunities, team and network of internationally operating experts
- ❖ Product demonstration meetups, company team-ups, joint voluntary service
- ❖ Central workplace in Berlin, amazing IT equipment & tech talks to spread knowledge
- ❖ Possibilities for internships and theses
